POLITICAL POT BOILING

Candidates Are Talked of for Different City Offices—Petitions Slow in Coming Out

With election only a little over a month away—April 6th—the political pot in Alliance is beginning to boil. The only candidate to announce himself for mayor up to today is Penrose E. Romig, now councilman from the new first ward.

Archie Gregory, who has been city treasurer for the past year, has petitions out for re-election to a second term.

With four wards, now that Alliance has become a city of the first class, and with only two councilmen holding over, Snyder and Fleming, a total of six councilmen will have to be elected for the coming term of two years. The first and second wards will each elect one councilman and the third and fourth wards will each elect two councilmen.

Candidates whose names are mentioned but whose petitions are not yet out are Ben Sallows for councilman in the first ward; Ed Shields and F. J. Was for councilman in the second ward; John Brennan, Jerry Rowan and W. H. Swan for councilman in the third ward; A. J. Welch and Wm. Davidson for councilman in the fourth ward; Lloyd C. Thomas for city clerk.

It is expected that there will be a number of new candidates for the different city offices out within the next few days.

Filed Serious Charge

W. H. Matthias has filed a charge in the district court against Dal Dorgan of assault and battery with intent to injure at the city bar. The penalty for the charge is from one

to five years in the penitentiary. Dorgan is the man who wrecked the interior of the cage at the city jail Monday evening after being arrested by the night marshal. He claimed that the night marshal treated him cruelly after being arrested and that he did the damage out of revenge. He tore up the mattresses and smashed the plumbing in the cage, and created a general scene of wreckage.

Likes the Town

J. O. Gruesel, of Gruesel & Miller, leading Lincoln real estate men, is in the city today, stopping over while on his way to Scottsbluff, where he has been selling some farm and ranch property. Mr. Gruesel says that the outlook for the real estate business during the coming year is very bright and states that his firm is going to give particular attention to the colonization of western Nebraska during the coming months. He left for Scottsbluff at noon.

Mrs. McClain's Experience With Croup.

"When my boy, Ray, was small he was subject to croup, and I was always alarmed at such times. Chamberlain's Cough Remedy proved far better than any other for this trouble. It always relieved him quickly. I am never without it in the house for I know it is a positive cure for croup," writes Mrs. W. R. McClain, Blairville, Pa. For sale by all dealers.—Advertisement.

DO YOU STAMMER? WRITE J. E. VAUGHAN RANGE BLDG. OMAHA

The Jeffery Chesterfield Six is the most up-to-date of all up-to-date cars

Every feature of the Jeffery Chesterfield Six is stamped with the approval of the world's foremost engineers.

For example, the "Chesterfield" high speed, high efficiency, small bore motor is the type which European and leading American engineers today regard as the most perfect automobile motor ever built. This type Jeffery made famous in America.

The Jeffery Chesterfield system of four speeds forward and one reverse is, in conjunction with the high speed six-cylinder engine, the most up-to-date of all transmissions.

In the rear axle you will find that type to which all the greatest engineers are turning:—the silent worm drive.

The "Chesterfield" cantilever springs, as Jeffery suspends them, give the most perfect riding comfort. You swing over the roads without vibration or jar.

In all these, and many other respects Jeffery leads. An extra \$1,000,000 is the sum Jeffery pays again this year for such super-quality.

If you want to see the most advanced of all good cars, if you are interested in knowing what the engineering world approves as the finest in materials and design, come in and see the Jeffery Chesterfield Six.

ALVADORE

A Wheat Field Yesterday
A Town Today
A City Tomorrow

A new railroad building from Portland to San Francisco opens up for settlement and development some of the finest farming and timber land in Oregon. Alvadore is a new railroad townsite 110 miles south of Portland in one of the most fertile sections of the Willamette valley. The half-way point between Coos Bay, the best harbor, and Portland, the best distributing point in Oregon. Surrounded by thousands of acres of the finest fruit and berry land in the state. Trading center for 10,000 acre sub-divided district and a rich diversified farming country.

Irrigation Unnecessary
10 Months Growing Season
Flowers Every Month in the Year

Crop failures are unknown. Billions of feet of timber near the town and water power on the river will make it a manufacturing center. Many homes, stores, school and cannery are now building. Hundreds of thousands of dollars will be spent in building and development during the coming year with consequent increase in property values.

The railroad is desirous of a rapid development and to assure this the company are offering for a short time only business lots at \$100 and residence lots at \$50, with special inducements to builders. There are openings in numerous lines of business. Fortunes were made in the development of California and the Pacific Coast of Washington. Larger fortunes will be made in the development of the Willamette valley, owing to its greater resources.
